WHERE TOYS ARE MADE.

The Productions of Germany, Switzerland and Holland.

Wooden carved toys are chiefly made in Germany and Switzerland, the cheaper kinds in the neighborhood of Nuremberg and the better qualities at Sonne burg, in Thuringia, from which latter place about twenty-four million articles, valued at £800,000, are annually exported. Large quantities of wooden toys are also made in Saxony, where an in-genious process is in use for diminishing the labor involved in the production of animals. A circular block of soft wood is turned into a ring of such a pattern that by slicing it vertically a rough representation of an animal (say an elephant) is secured. Each rudimentary figure is then trimmed by hand, the ears, trank, tusks and tail, all of which are separately turned and sliced by the same method, are inserted; and when CATTON, BELL & CO. Application for a Patent Notice of Forfeiture. the animal has been painted and varnished it is ready for use.

Clay marbles also come exclusively from Saxony, being mide of a clay no: found elsewhere. The better qualities come from Holland, where they are made from fragments of alabaster and other stones. Taw and alley, the common names for the two qualities principally used in this country, are abbreviations of tawny and alabaster.

A great ten days' toy fair is annually held at Leipsic, when more than six thousand merchants exhibit their goods in every available inch of space, even in the garrets of the six-storied houses. Marburg, in Hessen, is chiefly occupied with the manufacture of musical toys, while Biberach, in Wurtemburg, is noted for substantial metal articles, such as carriages, locomotives, furniture, etc. The specialty of Switzerland is wooden cottages, models, etc. Some of the large dealers do very well out of the industry, but the actual toy-makers in both countries are miserably paid, and find it very hard. even by the most unremitting toil, to gain a subsistence from their employ ment, many of them being obliged to supplement their earnings by engaging in out-door labor during the summer The productions of Holland are very similar to those of Germany .- Cham bers' Journal.

JAMES MEANS' S3 & S4 SHOES

"Competition is the Life of Trade." and if you have not seen our latest improved goods you cannot magine how lively trade is, or how hard our competiturs have to work to keep within sight of us. Ask your retailer for the James Means' \$3. Shoe, or the James Means' \$4. Shoe according to your nees.

Possitively more genuine unless having our name and price stamped plainty on the soles. Your retailer will supply you with shoes so stamped if you insist upon his doing so; if you do not in-ist, a me retail re will coax you into buying inferior shoes upon which they makes larger profit.

Such has been the recent progress in our branch of industry that we are now able to affirm that the James Means' \$4 8000 is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exaggerate. Ours are the original \$3 and \$4 > hoes, and those who initiate our system of business are mable to compete with us in quality of ractory products. In our lines we are the largest manufacturers in the United States.

Shoes from our celebrated if every are sold by wide-n wake retailers in all parts of the country. We will place them easily within your reach in any State or Perritory if you will invest one cent in a postal card and write to us.
